## Permission to Install – For Landlord

I, \_\_\_\_\_, permit Citizens Telecom Solutions to install *Fiber*  
(landlord's name)

*Optics and Fiber Optic equipment* at \_\_\_\_\_  
(address where services will be installed)

for \_\_\_\_\_ on \_\_\_\_\_.  
(customer's name) (date of install)

I understand that a Fiber Optic installation requires a small box to be mounted on the outside of the home and wire(s) to be run from the box to the inside of the home. I also understand that a power supply is necessary to use services installed through Fiber Optics.
